

New Uniform Management System

A SMARTER WAY TO MANAGE
STAFF UNIFORMS & WORKWEAR

Smarter. Faster.
Fully Managed.

Take complete control of your employee uniforms with our multi-functional Uniform Management System – designed to simplify ordering, control spending and streamline uniform allocation across your business.

Why Choose Uniform Management?

Manage Uniforms by Department

Group employee kits and uniforms by department, role or team for easy allocation and consistency.

Simple Re-Ordering Process

Employees can quickly order and re-order approved uniform items through a streamlined online portal.

Approval Process Available

Maintain control with optional order approvals before purchases are processed.

Multiple Permission Levels

Give managers, supervisors and employees different access levels based on responsibilities.

Control Employee Spend

Set spend limits and item allowances, with flexible time periods to help keep budgets under control.

Full Kit Control

Assign specific uniform kits to employees and edit them at any time.

Powerful Reporting Features

Access detailed reports on: Employee spend, Order history, Uniform allocation, Transaction tracking and Kit changes & updates.

Flexible Delivery Options

Choose workplace or home delivery to suit your team.
