6 x 250 m

For wiping

19,5 cm

1 ply

For improved hygiene in food processing and preparation areas, choose this blue wiping paper roll. It's both highly visible and HACCP certified for safety. Each sheet effectively cleans with a high level of strength, thickness and absorbency, so fewer towels are needed at a time. Save time on refills, too, as the wiping paper roll's high capacity means it lasts longer. Compatible with Tork W6 dispensers (651420).

Advantages at a glance:

- + HACCP compliant and food contact certified rolls for use in food processing and preparation areas
- + Stand up to high humidity and wet environments
- + Maximum strength, thickness and absorbency
- + Blue colour is highly visible and easy to trace
- + High capacity roll for fewer refills
